

Environmental Policy

As a leading manufacturer of quality concrete construction and paving products, management and staff at Mona Precast Ltd are committed to the effective management of the environmental impacts resulting from our business activities.

We will implement and maintain a series of measures in order to ensure that:

- Environmental impacts resulting from past, present and future operations are effectively managed;
- The identification and mitigation of the impacts of the environment on the business.
- We maintain ongoing compliance with environmental legislation and regulations and other compliance regulations relevant to the business.
- That the environment is protected and pollution arising from the business operations is prevented.
- Continual improvement in environmental performance is achieved and maintained.

We acknowledge that these aims can only be achieved through a planned and coordinated approach to environmental management.

The company is therefore committed to implement and maintain an Environmental Management System certificated to BS EN ISO 14001:2015.

This policy provides a framework to establish, communicate and review objectives, procedures and controls in relation to:

- Waste management
- Atmospheric Pollution
- Energy and Resource Conservation
- Management of Oil and Chemicals
- Statutory Nuisance
- Conservation and Heritage

This policy is subject to annual review and is communicated to all interested parties, suppliers and contractors working for and on behalf of Mona Precast Ltd.
